### Emergency, Surgery, and Hospitalization Cost Protection<sup>1</sup>

HealthShare covers your emergency, surgery, specialist, and hospitalization needs.

The initial unshareable amount, or IUA, is the amount a member must pay before expenses related to a medical need become shareable with the medical cost sharing community. After the IUA is met, additional eligible medical expenses are shareable with the community. So if you chose an IUA of \$2,500 and you are hospitalized with a heart attack, you only owe the IUA. That's it!

There is no annual or lifetime limit on eligible expenses. Members do not need to pay another IUA for any given sharing request until they are symptom free for 12 months. Additionally, members will not be responsible for more than three IUAs in a rolling 12-month period.

## Pre-Membership Medical Conditions & Maternity Needs Requests

To keep membership contributions low for all members, we implement a waiting period for sharing of medical conditions that existed prior to a member's membership start date. We call such medical conditions: pre-membership medical conditions. This section defines pre-membership medical conditions and outlines related sharing limitations.

### Definition of Pre-Membership Medical Condition

A pre-membership medical condition is any illness or injury for which a person has

- been examined,
- been diagnosed,
- taken medication,
- had symptoms,
- or received medical treatment

within the 24 months prior to their membership start date. Sharing requests related to pre-membership medical conditions are only shareable if the condition was regarded as cured and did not require treatment or present symptoms for 24 months prior to the membership start date.

### Pre-Membership Condition Benefit Limitations

- Any illness or accident for which a person has been diagnosed, received medical treatment, been examined, taken medication, or had symptoms for 24 months prior to the effective date is considered a pre-membership condition.
- Pre-membership conditions limitations:
  - 1st Year of Membership - Waiting period for all pre-membership conditions
  - 2nd Year of Membership - Up to \$25,000 of sharing for pre-membership conditions
  - 3rd Year of Membership - Up to \$50,000 of sharing for pre-membership conditions
  - 4th Year of Membership and Beyond - Up to \$125,000 of sharing for pre-membership conditions

### Exceptions for High Blood Pressure, High Cholesterol, and Diabetes

High blood pressure, high cholesterol, and diabetes (types 1 and 2) are not considered pre-membership medical conditions as long as the member has not been hospitalized for the condition in the 12 months prior to joining and the member is able to control the condition through medication or diet.

### Maternity

As with any other sharing request, expectant mothers pay a single IUA for all expenses related to their maternity sharing request. Shareable expenses may be related to miscarriage, prenatal care, postnatal care, and delivery. The maternity sharing request must be submitted no later than six (6) months from the date of pregnancy confirmation. Sharing requests submitted after that date will be considered ineligible for sharing.

Waiting Period - Conception occurring prior to membership start date is ineligible for sharing. Pregnancy existing prior to membership is not shareable. The conception date will be confirmed by medical records. Members who purposely misrepresent their conception dates may be subject to membership revocation.

Newborns who are not born in connection with an eligible maternity sharing request may be added to a household membership by calling or emailing Zion HealthShare. The newborn's membership start date can be no sooner than seven (7) days after delivery, if not born in connection with an eligible maternity sharing request. Any complications that the newborn may have, or any medical conditions present at birth, will be considered pre-membership medical conditions.
